We would like to personally welcome each of you to ACPA's 90th Convention; ACPA 2014 - Reinvent You. Us. Indy. It's a transformative time for higher and tertiary education; student affairs and services; and ACPA as we continue to grow, adapt and change. As we built this convention, we discarded our past ideas of "what makes an ACPA convention" and united around a vision of innovation. We reimagined and reinvented with a clean slate; we utilized social, cultural, and technological advances within our reach. We engaged in the difficult work of making certain that our committees, commissions, and entity groups embraced radical and sustainable changes that would challenge our members to learn in new and exciting formats.

Our convention is your opportunity to engage in exciting and challenging learning. We hope you will find the opportunity to learn new concepts, develop interactive networks, investigate new resources, and assemble a shared commitment to taking ideas and visions forward. We hope we have changed the way you will look at the convention. While the convention was once a method of containing you and captivating your thinking, now it is a dynamic, creative device where we have more opportunity to gather together as an organization, process information, and respond to the fast moving pace of higher and tertiary education and student affairs and services.

We would like to give you an idea of what you can expect and what we hope to achieve over the next few days. You will have an opportunity to hear from an abundance of engaging speakers who bring an academic rigor not seen in prior conventions. You will have the opportunity to learn various technology tricks in our Genius Labs, and discover the hot topics in our profession through #ACPATrendingNow. Most importantly, you will have many opportunities to engage with colleagues from institutions around the nation and world.

Since we met in Las Vegas last year, ACPA has reinvented itself and put forth a new Strategic Plan, adopted new ideas for international outreach, expanded our social justice platform, and hired excellence into the International Office. You, as college and university leaders, have the vision, the knowledge, the ability, and the experience to help us pave our way into the future. You are truly our greatest asset today and tomorrow, and we could not accomplish what we do without your support and leadership. Throughout this convention, we ask you to stay engaged, keep us proactive and help us shape the future of student affairs and higher education.

We would like to thank the steering committee members and all of the volunteers for being courageous, radical, and tenacious in their ideas and efforts; they are the ones who have truly reinvented your convention. We hope that you will be able to take advantage of what their innovative thinking and hard work has produced. Experience and be inspired by the excellent programs; reconnect with old friends and meet new ones; enjoy Indy. Have a great convention.

Navigating the Convention

Lost? Look for signage strategically placed throughout the Indiana Convention Center and convention hotels to assist you in navigating the convention.

Maps of each convention property are available in the back of the program book. Further information about navigating the convention and downtown Indianapolis can be found at the convention concierge locations.

Sustainability at the Convention

Turn it off: Limit the length of your showers in the hotel.

Unplug electronics in your hotel room such as cell phone chargers, tablets, and laptops. Turn off lights and heat/AC when you are not in your room. Request housekeeping not to leave lights, TV, and/or radio on with turndown service.

Reuse it: Reuse your hotel towels and linens.

Walk it: Walk when you can. Take public transportation or a shuttle service if it is not feasible to walk; use an environmentally-friendly taxi if you must use a taxi for transportation.

Spend it locally: Venture beyond the convention bubble to experience some of the local culture and community. When possible, choose to eat at a local restaurant or purchase local items. This will help the local economy and will financially assist those who may need it the most.

Offset it: Consider donating to non-profit organizations that allow you to offset your carbon footprint, such as carbonfund.org.

Recycle it: Recycle your nametag and program book.

Specific to Indianapolis: Indianapolis International Airport is one of the largest LEED-certified projects in the country with 1.2 million square feet. Indiana Convention Center provides food recycling and repurposing through Second Helpings – a nonprofit that redistributes leftover banquet food to homeless shelters.

Thank you for helping make ACPA an international leader in sustainability for higher education. For more suggestions on steps you can take to help make a difference, visit the sustainability web site at <http://www.myacpa.org/sustaincomm/get-involved>.

Ethics

ACPA - College Student Educators International is an association whose members are dedicated to enhancing the worth, dignity, potential, and uniqueness of each individual within post-secondary educational institutions and, thus, to the service of

society. ACPA members are committed to contributing to the comprehensive education of students, protecting human rights, advancing knowledge of student growth and development, and promoting the effectiveness of institutional programs, services, and organizational units. As a means of supporting these commitments, members of ACPA subscribe to the following principles and standards of ethical conduct. Acceptance of membership in ACPA signifies that the member understands the provisions of this statement.

Social Media Command Center

If you use Facebook, please search for and like the ACPA 2014 Convention fan page. For Twitter users, be sure to follow @ACPACONVENTION for convention updates and please use the #ACPA14 hashtag in your tweets for answers to questions and convention conversations. On Instagram or Vine, please add the #ACPA14 hashtag in descriptions of pictures and videos shared during convention.

You can also use ACPA’s mobile-friendly convention website to get up-to-date schedule information and event details, which also features an integrated Twitter feed.

ACPA is once again using the Guidebook app as its main mobile app in Indianapolis. For 2014, there is a fully functional schedule, with itinerary building capability. It also includes interactive maps, built-in social media access, instant feedback for all programs, real-time updates and messaging, a shared photo album, and more! Available for iOS, Android, Blackberry, and web-enabled devices, Guidebook can be downloaded for free on multiple devices. To download the app, please search “Guidebook” from your mobile app store. Once downloaded, search within Guidebook for “ACPA 2014 Convention.”

Transportation

The ACPA Convention is located in the heart of downtown Indianapolis. The convention hotels and the convention center are within walking distance to numerous shops, restaurants, and local attractions. Skywalks are located throughout the downtown area to provide easy movement between hotels and the convention center. A number of options exist for transportation in downtown Indianapolis.

IndyGo – Indianapolis Public Transportation Corporation offers 30 fixed routes within the downtown area. Visit www.indygo.net for more information and prices. The public transportation system does offer options to the Indianapolis International Airport, however, please be aware that this is based on a first-come, first-serve basis. We do encourage ACPA Convention participants to make reservations for transportation to the airport rather than

using the public transportation system given the large number of attendees that will be departing and arriving during the same blocks of time.

Taxi – Taxi cabs are a common way to get to areas that are not walkable in the downtown area. Specific taxi companies participate in a regional \$5 fare. Stop by the Convention Concierge for more information on which companies participate and the area covered.

Pedicabs - For a unique way to get around Indianapolis that is also an environmentally friendly option, visit Circle City Pedicabs at www.circlecitypedicabs.com for more information. Please note the operation of the pedicabs will be dependent upon weather conditions.

Staying Healthy During Convention

- Stay hydrated with water, which will keep you energized and focused for the countless learning and networking opportunities in Indianapolis.

Educational Curricula and Highlights

The convention theme, “REINVENT You. Us. Indy.” invites us to analyze the standard ways that we have come to think about our work and ourselves. Our location in Indianapolis, a city that has reinvented itself, reminds us of the opportunity we have to engage continually in transformative practice and innovative approaches that benefit our learning and the learning, development, and growth of our students.

Central to the substance and structure of the ACPA 2014 Convention program are the ACPA/NASPA Professional Competencies. These essential areas have shaped the content and the context of the educational program at the Indianapolis Convention. We encourage you to be intentional about creating an individual convention experience that focuses on the particular knowledge concepts, topics, skills, and values that matter most to you and advance your professional development. Below each educational program title, professional competencies are identified. We hope this will make it easier for you to plan your convention schedule in the way that best accommodates your professional interests and development.

Professional Competencies

Advising and Helping addresses the skills related to providing counseling and advising support, direction, feedback, critique, referral, and guidance to individuals and groups.

Assessment, Evaluation, and Research (AER) focuses on the ability to use, design, conduct, and critique qualitative and quantitative AER analyses; to manage organizations using AER processes and the results obtained from them; and to shape the political and ethical climate surrounding AER processes and uses on campus.

Equity, Diversity, and Inclusion includes the awareness, knowledge, and skills to create learning environments that are enriched with diverse views and people, and to create an institutional ethos that accepts and celebrates differences among people and helps to free them of any misconceptions and prejudices.

Ethical Professional Practice pertains to the skills and abilities needed to understand and apply ethical standards to one’s work. While ethics is an integral component of all the competency areas, this competency area focuses specifically on the integration of ethics into all aspects of self and professional practice.

History, Philosophy, and Values involves knowledge and skills that connect the history, philosophy, and values of the profession to one’s current professional practice. This competency area embodies the foundations of the profession from which current and future research and practice has grown. The commitment to demonstrating this competency area ensures that our present and future practices are informed by an understanding of our history, philosophy, and values.

Human and Organizational Resources include skills and knowledge in the selection, supervision, motivation, and formal evaluation of staff; conflict resolution; management of the politics of organizational discourse; and the effective application of strategies and techniques associated with financial resources, facilities management, fundraising, technology use, crisis management, risk management, and sustainable resources.

Law, Policy, and Governance includes the skills and knowledge relating to policy development processes used in various contexts,

the application of legal constructs, and the understanding of governance structures and their impact on one’s professional practice.

Leadership addresses the knowledge and skills required of a leader, whether it be a positional leader or a member of the staff, in both an individual capacity and within a process of how individuals work together effectively to envision, plan, effect change in organizations, and respond to internal and external constituencies and issues.

Personal Foundations involves the ability to maintain emotional, physical, social, environmental, relational, spiritual, and intellectual wellness; be self-directed and self-reflective; maintain excellence and integrity in work; be comfortable with ambiguity; be aware of one’s own areas of strength and growth; have a passion for work; and remain curious.

Student Learning and Development addresses the knowledge and understanding of concepts and principles of student development and learning theory. This includes the ability to apply theory to improve and inform student affairs practice, as well as understanding teaching and training theory and practice.

Utilizing the Competencies

Practitioners can best utilize a competency-based approach to their professional development efforts by following a simple process such as:

1. Become familiar with the actual document mentioned above at www.myacpa.org/publications.
2. Determine your future professional or career goals, and what competencies are needed to be successful in those roles. If you need assistance with identifying the competencies relevant to those roles, consider having a conversation about this with colleagues who currently serve in those capacities.
3. Identify what gaps exist between the competencies you currently possess and those needed in the roles to which you aspire.
4. Focus on developing your targeted competencies through various opportunities, including those provided at the annual convention.

A-Z Program Overview and Highlights

#ACPATrendingNow

Featuring 60-minute discussions centered on current topics, #ACPATrendingNow will allow members to come together to discuss the most important issues impacting student affairs educators today. Instead of naming “critical issues” well in advance of the convention, we know that each year “hot topics” and important concerns emerge that demand our response. Until now, due to the program submission and selection timeline, we have missed opportunities to formally engage in these conversations at the annual convention. We have changed that. Please join us at two different sessions held during the noon hour. Topics will be displayed on table signs and via social media. #ACPATrendingNow sessions are:

- Monday, March 31, 12:00 – 1:00 pm (10 topics)
- Tuesday, April 1, 12:30 – 1:30 pm (10 topics)

Both sessions will be held in the Indiana Convention Center in Hall J in round table format. We invite participants to bring their own lunch for these conversations.

Continuing Education (CE)

Counseling and Psychological Services

Continuing education credits toward certification or re-certification for counselors will be available through ACPA, which is approved to award continuing education credits by the National Board of Certified Counselors (NBCC). Continuing education credits for psychologists and social workers will be available through ACPA’s Commission for Counseling and Psychological Services, which is approved to award CEs by the American Psychological Association (APA) and National Association of Social Workers (NASW), respectively. A complete listing of educational programs offered for continuing education credit is available in the index of the program book and is noted at each program description.

Extended Sessions

An Extended Session is a lengthier program filling a two and a half hour block. These sessions provide convention attendees with an intensive learning experience designed to promote a level of competence in a specific area. By providing more time, presenters can explore a topic in more depth. This year’s Extended Sessions are:

Pre-Convention Colloquia

These invited sessions provide opportunities for convention attendees to engage in deep, sustained dialogue and learning on contemporary issues most relevant to student affairs professionals. These are offered prior to the convention on Saturday, March 29 and Sunday, March 30 (half-day or full-day, three or six hours, respectively) at an additional cost. Half-day opportunities are also offered on Sunday morning by selected corporate partners for attendees to learn more about the tools and technologies that may assist them in their work. These sessions are free to those registered for the convention.

Promising Practices

The Promising Practices sessions allow presenters to share programs, strategies, and interventions that have been successful on their campuses. These 60-minute sessions will be of special interest to colleagues interested in gathering information about other institution's best practices. Look for sessions with the words "Promising Practices" in the title to find sessions in this category.

Research Paper and Poster Sessions

Research paper and poster sessions provide an opportunity to learn about on-going research in student affairs and to engage in active discussion about the process and outcomes of research.

Research papers are presented throughout the convention. Three research papers will be presented in each 75-minute session, with integrative comments from session leaders and opportunities for audience discussion. These 13 sessions are highlighted in the program book during their specific timeslots.

The research poster sessions are designed for discussion about research projects that are in process or have been completed. Presenters display research on a large bulletin board and are available to discuss their display and interact with those circulating in the room. Posters will be displayed from 7:30 AM - 5:00 PM on Tuesday, April 1 in the Marriott Ballroom Foyer. Researchers will be available from 2:00-3:00 pm and 4:00-5:00 pm to talk with convention participants. A listing of posters can be found in the program book.

ACPA Foundation

Celebrate!

The ACPA Foundation is celebrating 20 years as the fundraising arm of ACPA-College Student Educators International. Over the last 20 years students, faculty and staff have benefitted from your generosity.

By contributing to the ACPA Foundation, you join other ACPA members and corporate partners in providing critical funding that supports students and professionals in their research, scholarship, professional development and leadership programs. These funds help to enhance the student affairs profession and generate and disseminate knowledge of college students.

Some of the fundraising activities include the Diamond Honoree program, which recognizes outstanding professionals; the Speaker Showcase, which allows institutions to bring nationally known speakers to campus at a reduced cost; the Annual Fund; the Corporate Partner program; and convention events such as the Silent Auction.

Foundation funds support such programs as the Phyllis Mable New Professionals Institute, the Next Generation program, research grants, and scholarship to name a few. All of these programs promote ACPA's commitment to students and the student affairs profession.

“Giving to the ACPA Foundation is a tangible way for me to say THANK YOU to the profession that has provided me with so many opportunities to impact the lives of students. I know that my contributions help to provide outstanding programs that enhance the college experience. I am grateful to everyone who supports the work of the Foundation and would encourage all ACPA members to find a way to get involved in our work.”

WHY AREN'T WE THERE YET

Taking Personal Responsibility for Creating an Inclusive Campus

Edited by Jan Arminio, Vasti Torres, and Raechele L. Pope

"This collection of seven essays on diversity in American higher education examines practical policies of inclusion and explores the ways in

which overly simplified efforts at assimilation have failed to deliver meaningful results in the creation of campus experiences that address the needs of diverse student populations. Topics discussed include personal and professional development and self-awareness, relationship building, the historical context of diversity efforts, institutional culture, practical action versus policy, a diversity of solutions for a diversity of problems, and student affairs, values and inclusion. The contributors are academics in education and administrators in student affairs at US universities." —**Book News Inc.**

ART OF EFFECTIVE FACILITATION

Reflections From Social Justice Educators

Edited by Lisa M. Landerman

This book is for student affairs administrators—at whatever their level of experience—who are being asked to become social justice educators to prepare students to live successfully within, and contribute to, an equitable multicultural society. It enables facilitators to create programs that go beyond superficial discussion of the issues to fundamentally address the structural and cultural causes of inequity, and provide students with the knowledge and skills to work for a more just society.

CONTESTED ISSUES IN STUDENT AFFAIRS

Diverse Perspectives and Respectful Dialogue

Edited by Peter M. Magolda and Marcia B. Baxter Magolda

"Regardless of its almost 500-page length, the smooth flow of the writing and format, the variety of perspectives presented, and the currency of the contested issues all offer a very thought-provoking and subsequently worthwhile read for graduate students in their preparation. This book will offer a sense of realities of student affairs practice. For that reason, professionals will also find this book useful as excellent fodder for professional development dialogue and reflection."
